PROFESSIONAL EXPERIENCE

Full Stack Developer

Jan '22 — Present

Freelance / Local Client

- Delivered 10+ full-stack web applications for international clients using Next.js, React, Node.js & MongoDB
- Designed and developed RESTful APIs with authentication, authorization, and scalable architecture
- Implemented secure authentication systems using JWT and role-based access control

Frontend Developer

Jan '23 — Jun '25

Mathmozo

Dhaka, Bangladesh

- Developed responsive and consistent UI components using React + Tailwind CSS
- Integrated frontend with backend APIs and optimized loading/performance
- Optimized page performance and reduced load time through better state management and lazy loading

PROJECTS

Sensor shop BD, Contributed to building a service platform by developing scalable frontend and backend features. [Link](#)

UMBD, Developed full-stack features for a client-focused service platform. [Link](#)

Jonosokti, Service-based platform where I developed and maintained full-stack web features for client projects. [Link](#)

Hyori Organic Food, Hyori Organic Food is a full-stack e-commerce web application for buying fresh and organic products online. It features user authentication, product management, shopping cart, and an admin dashboard. Built with Next.js, Node.js, Express, and MongoDB, following scalable and industry-level practices. [Link](#)

Additional projects are available on my portfolio and GitHub profile. [Link](#)

EDUCATION

Diploma in Computer Science & Engineering, Aptouch Polytechnic Institute

Jan '20 — Oct '24

Dinajpur, Bangladesh

ADDITIONAL INFORMATION

- Experience working with international clients and remote teams
- Strong problem-solving mindset with focus on real-world applications
- Continuously learning advanced backend architecture and system design
